The End Times Made Simple

In today's evangelical Christian world, eschatology - the study of the "Last Things" - has been turned into a sort of pseudo-science with a plethora of authors claiming to know exactly the scenario of events that are to take place just prior to the Lord Jesus Christ's return, as well as what the eternal state will be like. Often, these authors come to rather bizarre and unbiblical conclusions.

In this conference, Dr. Samuel Waldron will strip away years of false teaching and faulty exegesis thrust upon the church to reveal what the Bible, in its own simple but profound way, says about what will happen at the end of this present age.
